## III. 1 What did you like about the class?

I learned so much more than I expected, and the instructor was very patient and helpful. I also liked the location with it's easy access.
format of lecture followed by individual work on exercises
everything, esp instructor!
Content
Good training materials, instructor is patient and thorough.
Well paced
EASY ACCESS
The style in which Prof. Burnett talk the class - calm demeanor - instead of clicking through fast like many IT folks
The instruction was very good and the hands-on exercises were useful.

Being able to understand formula applications.
--

### III. 2 What didn't you like about the class?

Not a single thing
--------------------

would have liked to have gotten into the use of more complex formulas mirroring real life situations
--

liked everything
------------------

N/A
-----

As always happens in classes like this the exercises are rushed.
--

hard to say
-------------

Some of the screen shots in the manual were in black & white but would have been better in color. Made finding some of the "file names" hard to read.
---

N/A
-----

Too many units to cover in a short period of time
---

The course was very fast-paced.
---------------------------------

Asking the instructor too many questions sometimes on very minor issues I suppose to understand.
--

### III. 3 What improvements would you suggest?

None
------

include a longer exercise at the end that ties together the skills learned in the course (good prep for certification!)
---

no changes needed`
--------------------

None
------

Perhaps the class should be longer.
-------------------------------------

NO COMMENTS
-------------

Give relatively more time for units that are building blocks for Level III
--

The time allotted for some of the exercises could be increased. This may require not doing other exercises in class.
--

For students to greatly grasp instructions, more days should be added to the training. It is very complicated.
--

### III. 4 What other classes would you like to see offered?

Not Sure what's available
---------------------------

SQL, Adobe Photoshop
----------------------

none
------

N/A
-----

MS EXCEL III
--------------

Business management courses for self-employed people.
---

### IV. 1 How did you find out about this class?

N/A
