The Professor Patients
the time is too short
Felt rushed towards the end.

III. 3 What improvements would you suggest?

None
Personally, I am not a fan of the teaching style. It is perfect for slower working people. I work a little quicker so I was finished with the assignments about 10-20 minutes before everyone else and had to wait for them to start the next section. I prefer more interactive classes. I took a Word class with Blair Hall and he worked through the book assignments with us (making it more interactive).
As is OK
More days for the class
I suggest to have more hours
extend the class to 3:30pm.
