III. 1 What did you like about the class?

Lots of hands on experience, get to code for the majority of the time. Had chances to work both independently and with guidance.
A variety of topics covered each day with useful information as a basis.

This course was much more trial and error than Level I which was follow along. This was helpful.

Javascript

The professor was well prepare, helpful, was always before 6:30 pm

the content and the instructor

Had plenty of exercises

III. 2 What didn't you like about the class?

Nothing, great class!

At times it was difficult to follow along when writing code together.

N/A; I notice a vast difference between Level I and Level II depending on how many students are in the course. The smaller classes can be much more effective; students can learn in a more individualized way.

Only have 5 classes

too much material in a short amt of time

Went very fast

III. 3 What improvements would you suggest?

Asking occasionally if everyone is still on the same page.

Keep classes small, when possible!

To add more classes

add more days to course time line

more examples

III. 4 What other classes would you like to see offered?

Looking forward to Level III!
Classes about IT
Web application design

IV. 1 How did you find out about this class?
