### III. 1 What did you like about the class?

Moved at a good pace for me. This was primarily a refresher course, where I hoped to find a couple of "tricks" to make things easier, things that have been added since I last substantially used spreadsheet software (Lotus).
The format of the class and book was very well laid out.
Great understanding of Microsoft Excel.
The pace was good.
The instructor was excellent. He was engaged, knowledgeable and explained the content well.
Hands-on aspect
The instructor explained topics well and kept the class at a good pace. The learning environment was excellent.
the instructor went over each lesson before we did the section and it made it very easy to complete each assignment
I liked the formula of instruction and doing. The instructor was very patient and made things clear
The instructor is very pleasant, knowledgeable and helpful. This is a good overview of Excel.

### III. 2 What didn't you like about the class?

Nothing, it was very well done.
A lot of Excel in two days!!
Nothing
Nothing
Moved fast for hands-on practice.
n/a
Nothing
Didn't cover some of the things I needed to know like sorting and working with text. It was like sipping water from a firehouse at points and I would sometimes check my brain out the door and and just follow the step by step instructions
Although I feel that the instructor's skills and knowledge is superior, I don't feel that I left the class with adequate knowledge regarding actual application of the material, in regards to my specific needs.
It moves too quickly and has too vast a content for a 2 day class.

### III. 3 What improvements would you suggest?

None. Amount of time, pace, everything was quite good for my level.
None
None
None
Homework to be completed at own pace.
None it was a great experience for someone who had not attended a class in over 25 years
wish it covered less material and focused on few important things. I would have liked to have created a file from scratch and then built on that file and then been tested on this - I feel I'll forget 80 percent of this

The course content could be split in half and it would still be enough to cover in 2 days!

### III. 4 What other classes would you like to see offered?

Already taking them - excel intermediate and advanced.
Networking for job seekers
None
Saturday Real Estate Licensing Courses
Golf management
In Design
Word

### IV. 1 How did you find out about this class?
