**III. 1 What did you like about the class?**

I liked having a lot of time to spend working on the program.

Covered a lot of material and had opportunity to try it all

The Prof. knew his subject well.

It was dynamic and clear explanations

1) Many productivity techniques were highlighted 2) The workbook exercises were very useful

the teaching part

### III. 2 What didn't you like about the class?

Spent a lot of time waiting for other students to finish before continuing on to the next topic.

sometimes it seemed to go very fast and I worried that I wouldn't absorb the information

There was a large spread in terms of student abilities which was a little difficult because of relative speed on the exercises. I'm not sure there is an effective way to handle this as one wouldn't want to turn people away.

I would like to have more time and exercises

No concerns

to fast

### III. 3 What improvements would you suggest?

Maybe extra practice sheets for those who move the material faster than others. A little more teacher oversight while students practice the exercises.

More practice

None to suggest

not to fast
