III. 1 What did you like about the class?

Instructor was very helpful. Took time to help individuals
Nice pace
I learned a lot of good things.
I was able to understand how to navigate through EXCEL 2010 to accomplish what I need to know
It was a good basic excel course, which was perfect since I had no background in excel.
Alot of information covered. Pace was geared toward class needs and abilities.
Instructor is very helpful.
interaction and help you can get from others; relaxed environment
I could learn all things that had in my plans for this level. My experience with this class was great!
LEARNING ABOUT ALL THE DIFFERENT FUNCTIONS YOU CAN

USE.

That we covered a lot of material

I learn new things

III. 2 What didn't you like about the class?

more breaks

n/a

Nothing really, everything was good.

Instructor went too fast when explaining and demonstrating the various elements of the ribbon bars. I could not always follow him.

I liked the text with hands on practice. I would have liked to apply some of the key concepts, especially absolute and relative references, to developing a real-world excel spread sheet.

Too much sitting! A short break would have been nice.

Too much to learn and too little time for training.

text book seemed a little confusing at times

TIME GOES BY SO FAST AND EVERYTHING DONE FAST-PACED.

That the professor had us just do the exercises in the workbook a lot of the time and seemed a little unexcited to help us all.

Everything was great

III. 3 What improvements would you suggest?

Day2 is easier than day 1 reverse days

Everything is good.

More time on instruction at a slower pace would speed up working the example worksheets in the workbook.

See early answer.

See above!

May be more training time.
CAN'T THINK OF ANY.
More time for finishing up the tasks. I was usually able to finish, but sometimes it was hard. Contrary to what was said in class, I think the second day with the visual stuff was much harder to get through.
the class to be longer in days

III. 4 What other classes would you like to see offered?

Billing and coding.
Microsoft Word 2010.
ALREADY HAVE ALL THE DIFFERENT LEVELS OF EXCEL. I'M GOOD FOR ALL 3 LEVELS.
I think they're already being offered...More Excel.
N/A

IV. 1 How did you find out about this class?
