III. 1 What did you like about the class?

Carl is thorough yet efficient at the same time
you get to practice in class
It moved so much faster than the Basic class. I learned things about the program I didn't even know it would do.
The instructor provided detailed lectures and let us complete the exercises at our own pace.
Very informative and helpful. Learning all the intricate functions of excel is not only helpful but also interesting.

Very informative

III. 2 What didn't you like about the class?

location

Nothing

Could be compressed into two sessions possibly.

A lot of waiting time. Being done and having to wait for the rest of the class can be tedious, albeit inevitable.

I liked everything.

III. 3 What improvements would you suggest?

Nothing

Be more interactive and have students do more challenging exercises that are not strictly following directions from the book.

None, really.

No improvement.

III. 4 What other classes would you like to see offered?

all that would interest me are already offered
--

Analysis and Statistics.

Other microsoft office, although they already exist. None, really.
--

Don't Know.
