III. 1 What did you like about the class?

I learned new skills I can use right away on the job that will improve my efficiency.

This course was small and allowed for a lot of hands on practice after instruction. Professor Burnett was helpful and engaged in helping us to understand each topic. He also went further into researching questions we did have although they may not have been in the text.

Small class size and attention by the instructor as to what I was looking to get out of it.

III. 2 What didn't you like about the class?

| It was appropriate so I liked all the content. | |
|--|--|
| | |

| I would like the option of a few more than 2 days to touch on more Macro and VBA topics. |
|--|
| Not enough time and not enough exercises. |
| III. 3 What improvements would you suggest? |
| Some different examples to work on after we discuss a topic. For example, the teacher would go over an example and then we would do the same example on our own. It would make it helpful if the examples were different so we could think through the process more. |
| Overall - excellent! |
| Would like to have more exercises n the same subjects with a variety of outcomes. |
| III. 4 What other classes would you like to see offered? |
