III. 1 What did you like about the class?

Interactive classroom and an outstanding professor. Carl truly knows what he is talking about and he is great at teaching this class.

Easy to understand/moved at a fast enough pace
--

Great instructor. Carl was very knowledgeable, helpful and friendly.
--

Instructions

This class was very helpful to develop my skills in Excel

I liked the instructor and the step by step book instructions and being able to actually do the examples in class.
--

High implementation fidelity of course instruction that is very closely aligned with the textbook; lots of hands-on practice; No nonsensical jokes
--

III. 2 What didn't you like about the class?

n/a

n/a

It could have been condensed a little bit. I probably would have chosen the more frequent shorter classes instead of the 2 day long classes.
--

Book instructions not clear at times

This class was excellent, the instructor was very knowledgeable and helpful during the whole course.
--

I didn't like that the book was 2013 and the computer was 2016. I didn't like that my work was not backed up when the computer automatically shut down.

None

III. 3 What improvements would you suggest?

Perhaps the material should be more relatable to real life. It seems everything is somewhat abstract. Not sure if this is feasible or not, but could help the class relate more.
--

n/a

30 minutes for Q&A on "other" excel topics not covered in this class.

New book?

keep up the good work you do to help students to develop their skills.
--

make sure that the computer and book are for the same excel versions.

III. 4 What other classes would you like to see offered?

n/a

ms excel data analytics. an advanced excel class.

Data Analysis with Excel

Data analysis with Excel; Business Intelligence
