III. 1 What did you like about the class?

coding
Very hands on. Professor Burnett is also very knowledgeable about HTML.
it has it's own book it is informantive
Topics covered and working on-line
CyberAdvantage

III. 2 What didn't you like about the class?

none

The pace was sometimes way to slow or way to fast. We would go at a good pace usually, but people would fall behind and then we would have to speed back up so we all do not fall behind.
Lectures weren't very helpful. Teacher was just throwing HTML and CSS commands at us at 100 miles an hour without explaining them. Very frustrating
Too fast, too much info for a such short time.

III. 3   What improvements would you suggest?

none
Have people complete PRE-REQ so they are not completely clueless when completing class activities.
Either lengthen the course or reduce the amount of material covered so it can be taught at a reasonable pace.
Extended, because when the student does not have experience in the field, takes time to assimilated.

III. 4   What other classes would you like to see offered?

iphone programming
A Java programming class would be nice.
HTML5 LEVEL 102 CYBERADVANTAGE

IV. 1   How did you find out about this class?

Other : cyberadvantage
Other : N/A
Internet / Website
