**III. 1 What did you like about the class?**

Question answer period.

Everything

I liked the interactivity of the class, the pace that we moved at, the fact that the teacher came an hour early so we can code and helped & answered questions, I liked the collaboration of debugging with fellow students. I also really like the fact that the professor has a website with all of the material, references and web supports resources for us to access anytime. That is a very valuable asset and I was able to study before class and come prepared for the lessons. Thank you!

I liked the teaching style of Professor Burnett, the continuing productive and fun learning environment for the lessons, and the topics and information covered.
