## III. 1 What did you like about the class?

very thorough
I like that the class did provide a broad understanding of the capabilities of JS.
Class location; in-class homework and take home homework; 4 session-class is good, not too long, not too short; price \$199 is a good deal
content
js basics and coding skills
I liked the fact that I've learned a lot.
I have know a bit about how is the JavaScript work.
it was informative and lively
Student has been provided with the solution of the exercise for learning by comparison. I also liked when student were prompted to give responses to instructor's questions on the topics.

the outline and the classroom setting
Good sample exercises
I first to learn JS. That is really good experiment!

### III. 2 What didn't you like about the class?

none
While I did like understanding the scope of JS, I felt like there were too many exercises. I did not have enough time to fully understand how they worked.
Only 4 sessions
none
sometime the class content is too basic.
excellent instructor and useful samples
There wasn't anything I didn't like.
I think It was hard for me and went fast so I have some difficult to understand it
the time schedule
Hearing impaired students' level of noise caused me distraction.
Some exercise code are too small to view on the Projectors
too intensive
N/A

### III. 3 What improvements would you suggest?

none
I am not sure if it is possible to reduce the number of exercises. However, it would be helpful to take sometime to look in a selected few in depth. This could be done in groups as a problem solving activity before moving on to the solution. This would be especially helpful to the newer students who don't have as strong of coding background.
More sessions and in-depth coding
none
maybe the exercises can be one project to built one customized website.

no
SSD's for computers.
The teacher can teach a bit slowly.
nothing
More sample exercises
N/A

### III. 4 What other classes would you like to see offered?

Jquery in the future
All the classes that I am interested in are offered.
jQuery
database for web server development; SQL, etc.
js 2 - includes more advanced using of js
html
php,bootstrap,python,ruby
Web Designer
MVC
Ruby
N/A

### III. 5 What is (are) your reason(s) for taking this class?

to expand my JS knowledge
I am taking this course for professional reasons.
Refresher
To learn web development; enhance skill for work
to make my job related to js easier

business needs
To be able to apply JavaScript to web pages and web sites.
I would like to change my career to find a job in here.
work enhancements
Refreshing knowledge of web technologies.
For work
I want to learn more different programming languages.
