III. 1 What did you like about the class?

The instruction and hands on exercises.
Good introduction to XML and how it relates to the web.
It's new material.

III. 2 What didn't you like about the class?

The technical issues continuously prevented us from doing the exercises.
Not all exercises could be completed due to system issues.
That I'm not as up to speed on the basics that I should be.

III. 3 What improvements would you suggest?

Ensure all technology issues are resolved and everything is functioning properly prior to starting the course.
Fix program/system issues.
As a TechLEAP participant- I've completed 5 classes. For two of those classes, the textbook recommended for purchase was not what the teacher had in class. I'm not sure if that made a difference in my understanding of class material, but it would have helped to have the same reference material - especially to flip through for class exercises.

III. 4   What other classes would you like to see offered?

whatever is recommended to be marketable for employment.
